## PREPARING FOR A GREAT START

Parents want the best for their children. We have completed a list of ways parents can help determine when their child is ready to begin school and give their child a great start in Kindergarten.

1. Read to children so they know left to right progression.
2. Teach them to zip and button a coat and tie their shoes.
3. Practice with them how to cut on a line with safety scissors.
4. Your child needs to know their first, middle and last name.
5. They should know their parent's first and last names.
6. How many brothers and sisters do they have?
7. Knowing their address and telephone number is important.
8. Say nursery rhymes with them. Are they able to say five common rhymes?
9. Is your child able to sit still and listen to a five minute story?
10. Have your child retell a story to you, telling at least three events from the story.
11. Count with them by rote to twenty.
12. Count items to ten.
13. Can your child recognize the letters in the alphabet? (Not the sound they make but the letters themselves.)
14. Is your child able to follow three verbal directions such as: 1) go upstairs, 2) get your coat, 3) and bring it to me.
15. Manners are important. Children should display appropriate social behavior.
